

CHAPTER IV

CONCLUSION AND SUGGESTION

4.1 Conclusion

Based on the findings of the research that has been explained in the previous chapter, this one shows conclusion and suggestion. This conclusion is taken from the data that has been collected and interpreted by the researcher. They are:

1. The researcher found that the readability level of Bahasa Inggris for XII grade textbook contained to five categories. There are include in a five texts belonging to fairly easy that predicted to 7th grade students, one text belonging to normal categories that predicted to 10th-12th grade students, one text belonging to fairly difficult categories and four texts belonging to difficult category that predicted to difficult grade and two texts belonging to colleges student grade. The dominant category on this book is fairly easy category. The researcher found five fairly easy categories in Bahasa Inggris for 12th grade textbook.
2. The researcher found that the difficulty of reading text Bahasa Inggris for XII grade textbook contained to three categories. There are fairly difficult category, difficult category and very difficult category. The text belongs to difficult has a hard word, long sentence and very long sentence.

4.2 Suggestion

After explaining the conclusion, then the researcher shows some suggestion as follow:

- a. For the teachers

The teacher can apply the result of this study as feedback on their teaching activities that improve their knowledge and experience in choosing appropriate book, so that the students are better in reading skill.

- b. For the authors

The authors can use this study to measure readability of textbook, in order the students can understanding about the reading text.

c. For further research

In this research, the researcher has some suggestion for further research. For the next researcher, the researcher suggests to touch other category of readability, such as Smog Index, Gunning-Fog Score, Coleman-Liau Index, and etc. In short, the different text has different level of readability level.

Finally, the researcher realizes that this final project is far from being perfect. Because of limiting condition, constructive critics and advice are really accepted for the perfection of the final project. Hopefully, this final project will be useful for all of us.
