ABSTRACT

Putri Widiyansari. 1808103172. Developing Infographic for Learning Telephoning at SMK Islamic Centre Cirebon.

Learning materials should be able to provide content immediately while also guiding students in mastering the topics taught. The researcher creates infographics as media for development learning materials is carried out at the Vocational High School level. The teacher as a facilitator prepares valuable and not arbitrary learning materials. This is most likely because the quality of a learning material can be determined by three important factors: effectiveness, practicability, and readability. The aim of this research are to synthesize the principles of infographics for eleventh grade students of the Office study program in Vocational High School and to develop the preliminary form of infographics for learning telephoning at SMK Islamic Centre Cirebon. This study used the Research and Development (R&D) method involving students majoring in office program at Vocational High School. The method used in this research is critical literature review and document analysis. The data is analyzed, interpreted, and represented descriptively narrative. As a result, the principles of infographic for eleventh grade students of office study program and the prototype of infographics are made interesting for SMK and self-study with a few pages in it.

Keywords : Learning material, infographics, Vocational High School, R&D
